

Bridging course

Do you want to upgrade your WasteSmart Foundation certificate to Advanced level without having to sit the Foundation module again?

A fully updated and revised course is now available to bridge the gap between Foundation and Advanced level WasteSmart.

What's in it for me?

You will receive a refresher and update on any changes in legislation from the WasteSmart Foundation level and have the additional knowledge to upgrade to the Advanced level WasteSmart.

By the end of the course you will:

- Have information on any changes to legislation or regulations since taking the Foundation module
- Have the knowledge to help you identify improvements in resource and waste management
- Know where and how to make those improvements
- Have the skills to implement those improvements and demonstrate their impact to others
- A certificate to demonstrate successful achievement of the course

Contact details

We also offer in-house training for groups of delegates. We can deliver the training at your own premises or at an alternative venue, and on a date that is convenient to you.

Not exactly what you are looking for in terms of training?

We can provide bespoke training in other related areas.

Please contact us for more information or to discuss your requirements.

TRAINING COURSE

“This course has given me the tools and confidence to use within the company to bring about change in the way we think and execute our goals”

Foundation Level

Aims:

To provide you with the knowledge, understanding and skills to:

- Prevent wastes arising from workplace activities
- Contribute to improving the management of wastes that are unavoidable

Course content:

The course is comprised of 5 sessions:

- Waste as a resource?
- The environmental impact of waste
- The cost of managing waste
- Understanding and applying the waste hierarchy
- Legislation and ensuring compliance

What you will get out of the course

- Understanding why improving resource and waste management is important.
- The knowledge of key regulations and understanding of the responsibilities of those directly involved in managing wastes
- The understanding of how resource management can be improved through reducing waste in the workplace.
- The skills to identify improvements in your own workplace.
- A certificate to demonstrate successful achievement of the course.

WasteSmart Training

The WasteSmart courses are aimed at anyone who produces waste and who wants to improve compliance and reduce costs by preventing waste.

WasteSmart training courses are developed and owned by the Chartered Institution of Wastes Management (CIWM) and are delivered through a series of approved and registered WasteSmart Centre's and Trainers. There are three WasteSmart courses to choose from, these include Foundation, Advanced, and a new Bridging Module

WasteSmart offers cost effective training that will:

- Save your business money
- Give you the knowledge to be compliant
- Help you fulfil your environmental and CSR responsibilities

“A good in-depth course given by a very knowledgeable, professional trainer”

Advanced Level

Aims:

To provide you with the knowledge, understanding and skills to:

- reduce costs and aid compliance by preventing wastes arising from workplace activities
- improve the management of wastes that are unavoidable

Course content:

The course is comprised of 8 sessions:

- Waste as a resource?
- The environmental impact of waste
- The cost of managing waste
- Understanding and applying the waste hierarchy
- Legislation and ensuring compliance
- How to identify opportunities to reduce waste in the workplace
- Managing resources and wastes in the workplace
- How to demonstrate improvements.

What you will get out of the course

- The knowledge to help you identify improvements in resource and waste management.
- The understanding of where and how to make those improvements.
- The skills to implement those improvements and demonstrate their impact to others.
- A certificate to demonstrate successful achievement of the course
